SUMMARY

- **Microsoft Certified: Fabric Data Engineer** with proven experience architecting scalable pipelines from the ground up. I specialize in orchestrating complex workflows to transform diverse raw data into structured, production-ready assets.
- Dedicated to delivering efficiency, reliability, and maintainability across the entire data lifecycle.

PROFESSIONAL EXPERIENCE

Independent Data Engineer & Analyst 06/2025 – Present

Business Intelligence Analytics 03/2024 – 03/2025
AJA, Saudi Arabia

Senior Product Specialist 2018 – 2024
AJA, Saudi Arabia

Senior Medical Representative 2014 – 2017
IBSA, Egypt

PROJECTS

DipSignal | Financial Data Lakehouse & Analytics Platform

Live Dashboard : dipsignal.vercel.app 

- **End to End Orchestration:** Built a resilient **Dagster** ELT pipeline to ingest and normalize data across different assets (Crypto, Stocks, Commodities) and multiple news RSS feeds and APIs.
- **High Performance Warehouse:** Designed a **PostgreSQL** Star Schema warehouse and optimized for query speed.
- **Multi-Model AI Agent:** Integrated multiple models of **Google Gemini** to automate daily workflows, dynamically selecting models for specific tasks to optimize cost and latency.
- **Centralized Control Panel:** Developed a **Streamlit** admin panel to visualize DAGs, track data freshness, run SQL queries, and manage system health.

League of Legends Data Pipeline & Dashboard

- End-to-end data engineering project that automates collection, processing, and visualization of League of Legends match data using the official Riot Games API.
- It features API extraction with rate-limits and logging then updates a PostgreSQL database through pipeline automation using GitHub Actions, and finally displayed on a Power BI / webapp dashboards.

SKILLS

SQL | Python | PowerBi | Spark | Microsoft Fabric | Git | Dagster | Databricks |
Azure Cloud | Shell | Data Modeling | Data warehousing

CERTIFICATES

Microsoft : Fabric Data Engineer Associate  • EF SET English Certificate 

EDUCATION

Bachelor of Pharmacy 07/2014
Zagazig University
